your Honor,

I am a victim of the Camp Fire, and I have lost everything I owned. I have been praying for a fair settlement, NOT a "windfall", but a fair Settlement from PG&E.

I do not believe a fair settlement is forthcoming because of the \$11 Billion settlement PG&E negotiated with the insurance companies/hedge fund investors.

Since this was negotiated prior to PG&E adding the GHOST SHIP & TOBBS fires into the victims settlement, I believe that will leave PG&E underfunded to satisfy victims liabilities and WILL RUIN TOO MANY LIVES!

I also object to FEMA being reimbursed from the victims settlement fund!

Please do not allow this to happen! The injustice of it will be felt for years to come. It is my hope that PG&E would re-negotiate that amount to satisfy those claims without the large profits that investors would make from the devastation we lived through.

Sincerely,
Kelly A Fitch
